

# \$75

## Care Package for One Soldier

---

### Graduates Remain Part of Our Family

The promise that “Yemin Orde is always there for you” is important to every person who has ever lived in the Village. This sense of safety and lifelong support for graduates is one of the unique elements that makes Yemin Orde a model of excellence in Israel.

The Village sends care packages regularly to its soldiers who are serving in the military. These care packages cost approximately \$75, which funds the purchase of food, batteries, books, extra clothing and other needed supplies that are packed at the Village and delivered to the graduate-soldiers.

These packages reassure the young soldiers of the love and support that remains for them at Yemin Orde. Additionally, many staff will travel to attend army ceremonies in lieu of the children’s families who are unable to attend.

Visitors to Yemin Orde Youth Village often have the opportunity to help prepare these care packages and send their personal greetings to the soldiers, as well.

Graduates serve as important role models and mentors for youth at the Village. Teens look forward to visits from graduate-soldiers who share their experiences in the military and in the “real” world.
