Art, Music and Theater Enrichment

One of the most important components of Yemin Orde's unique philosophy is the encouragement of our youth to connect with their past, learn to feel good about themselves, and only then can they move forward to a productive and positive outlook for their future. With this in mind, Yemin Orde creates programs and activities designed to instill in each child a sense of security, empowerment, and hope for the future.

Yemin Orde's cultural arts programs are extremely effective in this respect as they provide our at-risk youth with avenues for self-exploration and self-expression while exposing them to creative thought and opportunities for realizing their capabilities.

With your support, the following enrichment programs are offered to our youth.

Music: Guitar – bass, electric, and classic, Piano – classic and modern, Organ, Voice development, Choir

Arts: Ceramics, Drawing, Painting, Photography

Dance: Jazz and Hip Hop, Breakdance, Ballet

Theater: Performing Arts, Public Speaking
